Commitments

In order to maintain its current rights of tenure for exploration and/or mining activities, the Company is required to perform minimum annual expenditure requirements specified by the Western Australian Government and pay local shire rents and rates. The expenditure obligations are subject to renegotiation when an application for a mining lease and/or renewal of exploration permits are made or at other times and are subject to whether the Company decides to continue a tenement's rights until its expiry Due to the nature of the Company's activities, it is difficult to accurately forecast the amount of future expenditure that will be necessary to incur in order to maintain present interests.

These obligations are not provided for in the financial statements and are payable at future dates as follows:

	Consolidated **June 30, 2014**	March 31, 2014
Not later than one year	$ 2,927,284	$ 2,737,429
Later than one year but not later than five years	$ 12,477,511	$ 12,367,701
	$ 15,404,795	$ 15,105,130

For the financial year ending March 31, 2015, the Company may and intends to apply for exemptions against expenditure in relation to those tenements which did not have sufficient expenditure recorded against them in the prior 12 months of their term. Exemption may and will be sought on the basis that aggregate expenditure on those tenements in prior years far exceeded the minimum required. In the event that exemption for these tenements is not granted (which the Company believes is highly unlikely), the Company may have to impair/expense the value of the amount capitalized to exploration and evaluation assets for those tenements. The Company will also be seeking to reduce expenditure, rates and rents requirements by selective relinquishment of some exploration tenements that are not considered essential. In addition, the Company is applying for future exemptions on a number of mining tenements which will allow the Company exemption on future expenditure up to 5 years in advance.

Following exemptions being applied for tenement expenditure for the year ending March 31, 2015 and for 2 years in advance on a number of mining tenements as outlined above, the obligations not provided for in the financial statements and are payable at future dates as follows:

	Consolidated **June 30, 2014**	March 31, 2014
Not later than one year	$ 681,402	$ 651,897
Later than one year but not later than five years	$ 9,797,811	$ 12,367,701
	$ 10,479,213	$ 13,091,701

(Expressed in Australian Dollars)

Options under the Share Compensation Plans can be granted for a maximum term of 5 years and may be subject to vesting criteria as determined by the Board.

The fair value of all options issued is measured and expensed as share-based compensation at grant date if they are fully vested upon granting otherwise the fair value is expensed over the vesting period. A corresponding increase is recorded to reserves, (see Note 8). For further detail on the accounting treatment of share options refer to Note 3 accounting policies.

8. SHARE-BASED COMPENSATION

The Company measures the cost of share options at fair value at the grant date using the Black-Scholes formula, adjusted to reflect market vesting conditions, but excludes any non-market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to vest and the entity revises its estimate of options that are expected to vest at each reporting date.

The fair value calculated for options issued is expensed over their vesting period as share-based compensation in the statement of comprehensive loss and a corresponding amount is recorded to reserves. Upon exercise the fair value of the options is re-classified from reserves to contributed equity. The weighted average fair value of options granted during the period was $0.04 (June 2013 - $Nil). Refer to Note 7 for details of options granted during the period.

The following assumptions were used for the Black-Scholes valuation of stock options granted during the period:

	Three months ended June 30, 2014	Three months ended June 30, 2013
	Weighted average	*Weighted average*
Share price	**CAD $0.16**	-
Exercise price	**CAD $0.30**	-
Risk-free interest rate	**1.07%**	-
Expected life of options	**3 years**	-
Annualized volatility	**154.21%**	-
Dividend rate	**-**	-

The volatility measured at the standard deviation of continuously compounded share returns is based on statistical analysis of daily share prices over a commensurate period of time which approximates the expectations that would be reflected in a current market.

Cash Based Restricted Share Unit Plan

The CEO, COO and CFO and Company Secretary ("executives") are eligible to participate in the Company's cash based Restricted Share Unit ("RSU") Plan which entitles them to receive cash based RSUs.

The key terms of the executives' cash RSU agreements are:

- No value is attributable to cash RSUs until they vest.
- RSU cash payment amounts are based on the market value of a common share in the Company on the date that the cash RSU vests. Market value is calculated as the average of the daily volume weighted closing price of a common share of the Company on the TSX for the 20 trading days prior to the vesting date.

14. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of resource properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. In the management of capital, the Company includes unissued capital of shareholders' equity.

(Expressed in Australian Dollars)

14. CAPITAL MANAGEMENT(cont'd)

The properties in which the Company currently has an interest are in the exploration and development stage; as such the Company is dependent on external financing to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed.

In addition to its exploration and evaluation activities with the Macarthur Iron Ore Projects, the Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the period ending June 30, 2014. The Company is not subject to externally imposed capital requirements.

15. COMMITMENTS

Option Agreement E30/317

The Company entered into an option agreement on June 16, 2011 to acquire exploration tenement E30/317, with an area of 29 km^2. Apart from the above, the Company has no other material commitments at balance sheet date.

16. CONTINGENT LIABILITIES

Mining Rehabilitation Fund ("MRF")

The MRF was implemented by the Western Australian Government on July 1, 2013. The MRF provides a pooled fund, levied according to the environmental disturbance existing on a tenement at the annual reporting date. The money left in the fund will be used for rehabilitation where the operator fails to meet rehabilitation obligations. This allows current Mining Act tenement holders to have all or partial of the security bonds released dependent upon the disturbance on the current tenements that hold security. Currently, this is an 'opt in' basis for companies to access the funds early. From July 1, 2014, participation in the fund will become compulsory. The Company successfully applied to the Department of Mines and Petroleum for release of its security bonds. All bonds were released.

First Strategic Development Corporation Ltd (in liquidation) ("FSDC")

The decision in the Queensland Supreme Court action by the Liquidator for First Strategic Development Corporation Limited (in Liquidation) ("FSDC"), was handed down on April 4, 2014 in favour of FSDC. The defendant directors have lodged an appeal against the company obtaining the full amount of the claim of approximately $1.3m plus indemnity costs. The appeal has been set down for September 2014.

An amount has been paid into the liquidator's solicitor's trust account as part of an agreed stay on enforcement of the judgement. Such funds are payable to FSDC in the event the appeal is unsuccessful.

The Company is a creditor of FSDC and lodged a Proof of Debt with FSDC's liquidator for approximately $460,000. The Company and another creditor entered into a Funding Agreement with the liquidator of FSDC, to fund the costs and expenses of proceedings. Pursuant to the funding agreement Macarthur is entitled to re-imbursement of its funding costs from the costs of removing the original liquidator, the public examinations and plus the costs of the insolvent trading action, enforcement of the judgement and any appeal.

LPD Holdings (Aust) Pty Ltd v. Macarthur Minerals Limited

The proceedings brought by LPD Holdings (Aust) Pty Ltd ("LPD") and Mayson Associates Limited ("Mayson") against the Company and some of the directors and officers of the Company in the Queensland Supreme Court in July 2012 were dismissed in December 2012 and the Company was awarded costs on an indemnity basis ("Indemnity Costs Order"). LPD and Mayson appealed the Indemnity Costs Order in the Queensland Court of Appeal ("Appeal") and on October 11, 2013 the Appeal was dismissed with costs of the Appeal being awarded to the Company on a standard basis ("Appeal Costs Order"). The Company is currently having the costs payable under the Indemnity Costs Order and the Appeal Costs Orders ("Costs Orders") assessed.

The Company continues to vigorously defend new proceedings that were brought by LPD in November 2012 ("Proceedings"). On November 26, 2013 the Proceedings were stayed by consent pending payment of the Costs Orders by LPD and Mayson. The Company was also awarded costs on a standard basis up to and including August 28, 2013 in respect of the Company's strike-out application in the Proceedings. The Company will seek to recover those costs on a standard basis.

Whilst the Proceedings are stayed the Company is incurring minimal legal costs. Legal costs of the Proceedings (if recommenced) up to and including the filing of the Company's Defence are estimated to be between $100,000 and $150,000 (inclusive of Counsel's fees and excluding GST). If the Proceedings continue to a full trial of the substantial issues, then the legal costs of the Proceedings after the filing of the Company's Defence are estimated to be at least between $400,000 to $600,000 (inclusive of Counsels' fees and excluding GST).
